JACOB WILLIAMS | Full Stack Developer

727-729-2260 | jacobwilliams2156@gmail.com | St. Petersburg, FL
jacobwilliams-dev.github.io | github.com/jacobwilliams-dev

Full stack developer and graduate of CodeBoxx Academy's AI Native Full Stack Development program who builds web, API and mobile applications with React, Node.js, Java Spring Boot and React Native. Pairs that technical range with 8.5 years of sales experience, including building the internal system behind a wholesale startup's $5.1M launch. Skilled at turning business needs into clear specs and working software, and at explaining technical decisions in plain language. Recognized for the emotional intelligence and empathic curiosity that build rapport with teammates and users, along with a proven ability to adapt quickly, drive results and exceed targets.

- **Data:** SQL / MySQL · MongoDB Atlas / Mongoose · PostgreSQL / Supabase · ERD-Based Schema Design
- **Testing & Quality:** Test-Driven Development · JUnit 5 · Mockito · MockMvc · Selenium IDE · Postman · Google Lighthouse · ESLint
- **Workflow & DevOps:** Git / GitHub (feature-branch workflow) · CI/CD with GitHub Actions · npm · Maven
- **AI-Assisted Engineering:** Claude Code · Spec-Driven Development · Requirement Decomposition · Context Engineering

Professional

- Business Requirements to Technical Specs
- Explaining Technical Decisions to Non-Technical Clients
- Client & Stakeholder Relationship Building
- Strong Written & Verbal Communication
- Adaptability
- Technical Documentation
- Team Collaboration & Code Review
- Root-Cause Debugging
- Business Systems & Process Design
- Self-Motivated

EDUCATION

CODEBOXX ACADEMY – St. Petersburg, FL Jul 2026 – Nov 2026

AI Native Full Stack Development Program – Junior Developer, Genesis Solutions (business simulation)

- Delivered full-stack projects for three simulated clients (Rocket Elevators, CodeBloggs and Rocket Food Delivery) across 15 client modules
- Translated client business documents, wireframes and an ERD into written specs and technical requirements before writing any code
- Built web, API and mobile apps on two stacks: MERN (MongoDB, Express, React, Node.js) and Java Spring Boot with MySQL and React Native
- Explained technical choices in plain language to non-technical clients, drawing on 8.5 years of client-facing sales

LENOIR-RHYNE UNIVERSITY – Hickory, NC Aug 2015 – May 2017

78 of 120 Credits Completed toward a B.A. in Marketing – Minor in Management
Attended on an Athletic Scholarship to Play NCAA Division II Football (Injury led to non-renewal of scholarship for 3rd year)
Dean's List 2015 – 2017 (4 semesters)

PROJECTS

Rocket Food Delivery – REST API & Mobile App | *Java 21 · Spring Boot 3 · MySQL · JWT · JUnit 5 · Mockito · MockMvc · React Native · Expo Router*

- Built a Spring Boot REST API with TDD for restaurants, orders, couriers and users, secured with JWT
- Wrote Mockito service tests and MockMvc controller tests, and documented every endpoint in Postman
- Built an iOS and Android app with role-based routing: customers browse and order food, couriers claim and deliver orders

CodeBloggs – Full-Stack Web App + DevOps | *React · Redux · Node.js · Express · MongoDB · Selenium IDE · Lighthouse*

- Co-built a MERN social blogging platform with posts, likes, comments and admin user and content management
- Raised the Login and Home pages to 100 in all four Lighthouse categories, tying each fix to a failed audit
- Wrote a 10-test Selenium IDE suite and benchmarked both pages against Reddit

Rocket Elevators – Website, REST API & Admin App | *JavaScript · HTML · CSS · Node.js · Express · MongoDB Atlas · Mongoose · React*

- Built a multi-page marketing website with a real-time elevator quote calculator for three building types and three product tiers
- Built an Express REST API on MongoDB Atlas with auth and validation middleware, CRUD and Mocha/Chai/Sinon unit tests
- Built RE Admin, a MERN admin app with login, agent CRUD, 24-hour cookie sessions, confirmation modals and toast alerts

Personal Portfolio – jacobwilliams-dev.github.io | *React · Vite · Supabase · GitHub Actions*

- Built a responsive portfolio site with a Supabase-backed contact form, deployed to GitHub Pages through GitHub Actions

EXPERIENCE

Business Systems Manager & Wholesale Food Broker Feb 2024 – Apr 2026
FIDELIS FOOD GROUP, LLC – Lancaster, PA
Recruited as a startup member with a foundational role in establishing Fidelis Food Group, LLC as an operational frozen food wholesaler, later transitioning into a hybrid role as Wholesale Broker & Systems Manager after launch. Led development of the company's internal technology and integration of parent company's business systems. Ensured adoption of internal systems by a newly formed 4-person sales team, optimizing operational efficiency.

- Played a pivotal role in building and positioning the company as a wholesale distributor of frozen #2 further processed proteins and overrun excess inventory commodities during Q2–Q3 and the beginning of Q4, leading up to its launch.
- Conceptualized and built proprietary technology system tailored to the wholesale food industry, which served as the foundation of the company's infrastructure, directly enabling the company's immediate post-launch sales
- Secured key vendor relationships, facilitating credit application processing to obtain advantageous payment terms
- Successfully launched Fidelis Food Group on November 3rd, rapidly generating $5.1M in company revenue by year-end (59 days)

National Accounts Sales Manager May 2023 – Feb 2024
CURATE FOODSERVICE – Boston, MA
Managed sales and account growth within the Chartwells Higher Education sector amid enforced non-compete restrictions during ongoing litigation. Strategically shifted focus to approved markets, revitalizing and expanding partnerships by 48.75% while driving revenue and profitability through high-volume outreach and strategic sourcing.

- Generated $143K in revenue across 8 orders within 3 weeks, driving $26,286 in profit before a non-compete lawsuit, showcasing immediate sales momentum
- Reestablished relationships and secured transactions with 26 Chartwells university accounts that had not purchased since before COVID-19 (2020), reviving dormant partnerships and expanding company sales footprint
- Increased active Chartwells accounts from 80 to 119, adding 13 new university partners and driving a 63.8% YoY revenue increase from $94K in Jan. 2023 to $154K in Jan. 2024.
- Increased average profit margin per approved product group by 10% by prioritizing opportunity-based purchases over always-available inventory, reducing product costs.
- Executed 80–100 calls per week with a 33% engagement rate, ensuring GPO contract compliance, which restricted product offers via email without prior conversation.

Sales Operations Specialist Jun 2021 – May 2023
SEMPER FOODS, LLC – St. Petersburg, FL
Established & managed portfolio of wholesale frozen food customers creating repeat business through relationship-driven sales with a focus on #2 value-added protein products. Played a key role in driving the company's 115% YoY revenue growth, from $13M in 2021 to $28M in 2022, generating $5.67M in total sales revenue across 184 orders over two years.

- Ranked 3rd out of 12 sales reps, driving $3.93M in sales revenue in 2022, placing among the top 3 sales producers, who collectively generated 59% of the company's total revenue. (1st & 2nd rankings were held by two senior reps with 5+ years of industry experience)
- Generated $853,078 in gross trade profit (GTP) in 2022, averaging $71K/month, while achieving a 21.68% profit margin: exceeding the company average by 5.21%
- Led sales team in new customer acquisition in 2022, successfully closing 27 new accounts with no prior transaction history, acquiring a new customer every 2 weeks (10 business days) on average
- Spearheaded the company's expansion into the pet food industry in 2023 by identifying key opportunities and securing the first-ever sale in this sector, diversifying the company's customer base and establishing a new revenue stream.
- Delivered immediate impact in 2021 by contributing $847,909 in revenue within my first 180 days in the industry, accounting for 13.04% of company's Q3–Q4 revenue ($6.5M total)

Licensed Real Estate Agent [Florida & Michigan] Aug 2017 – Jun 2021
CENTURY 21 LISTSMART – St. Petersburg, FL | CENTURY 21 C. HOWARD – Kalamazoo, MI
Top-performing real estate agent representing buyers and sellers in residential and commercial transactions, specializing in seller representation and new development projects. Consistently ranked among the top agents in the office, recognized for sales excellence, client satisfaction, and industry leadership. Recognized for strong negotiation skills, strategic marketing, and delivering seamless transactions while maintaining a high standard of client service.
